MEMORANDUM FOR: Assistant Director for Research and Reports

THROUGH: Chief, Economic Research, ORR  
THROUGH: Chief, Industrial Division, ORR

FROM: Acting Chief, Guided Missile Branch, D/I

SUBJECT: Transmittal of Proposed Letter to [REDACTED] Requesting  
Feasibility Study of Titan Rail System

25X1A5a1

1. A feasibility study of a rail-mobile Titan system has recently been completed by [REDACTED]. This study was discussed by company representatives with [REDACTED] during a visit to that facility on 24-25 November 1958. At that time, [REDACTED] pointed out that the study was wholly [REDACTED] and he did not know of any plans to release it outside of the company.

25X1A9a

2. In view of the interest which this Branch and the intelligence community generally has in the feasibility of rail deployment of long-range missiles, [REDACTED] later contacted [REDACTED] who is now an active AFCIN consultant and is conversant with current intelligence requirements in the guided missile field. [REDACTED] informed [REDACTED] that [REDACTED] felt that he could not release the study without an official request from the Agency.

3. It is recommended that the attached draft letter to [REDACTED] requesting release of the study to the Agency be approved and transmitted. Informal arrangements have been made with the [REDACTED] for delivery of the letter by the [REDACTED] Office. The attached memorandum to [REDACTED] covering this action is also for signature.
